

# Uninstalling XLSTAT

If you want to uninstall XLSTAT, all you need to do is:

XLSTAT 5.0 and later:

1. close Excel,
2. Activate the Windows control panel (see below),

3. select Add/Remove programs,
4. in the programs list, select XLSTAT-Pro, and click Remove.
5. click Yes in the Confirm File Deletion dialog box.
6. versions 5.0 till 6.1: remove the  button in the Excel toolbar. To do so, open Excel, select View / Toolbars / Customize, and then drag and drop the button over the dialog box that pops up.

XLSTAT will be removed from your computer. A new copy of XLSTAT can be downloaded from our website: <http://www.xlstat.com/en/download/> and installed.

XLSTAT versions 3.0 to 4.6:

1. check that XLSTAT is not selected in the Excel / Tools / Add-ins list; if it is, please unselect it,
2. close Excel,
3. remove all files starting by "xlstat" in the directory where you have installed XLSTAT.

XLSTAT will be removed from your computer. A new copy of XLSTAT can be downloaded from our website: [http://statisticalinnovations.com/products/xlstat\\_demo.html](http://statisticalinnovations.com/products/xlstat_demo.html) and installed.
